Our aims to provide friendly learning environment for K-5 students and inspire their passion on Chinese culture, Math and Coding. The faculty and staff are committed to create a learning community connecting family and children. Through a program of continuous progress, the distinctive environment caters to each child according to his or her unique abilities.

- In Math class: we focus on problem solving skills. Logical thinking is also experienced through games and stories.
- In Chinese class: we focus on language art. We build in culture awareness through poetry, drama and activities.
- In Coding class: we focus on logics. Children learn to create stories, games, and animations in a fun learning environment.

Our unique learning assets include:

- High qualified instructors with extensive teaching experience
